

BatchMan

Hybrid Business Process Automation and Monitoring for SAP and nonSAP

BatchMan takes over the processing of your background processes for all SAP and non-SAP systems and ensures that your business processes are driven forward efficiently, securely and in a resource-saving manner. The fast processing of the processes and a seamless integration with the SAP standard make BatchMan an optimal solution.

Benefits for your business:

- Central, cross-system control
- No additional hardware/software
- Low-code: Simple workflows without detours
- Event-based real-time processing

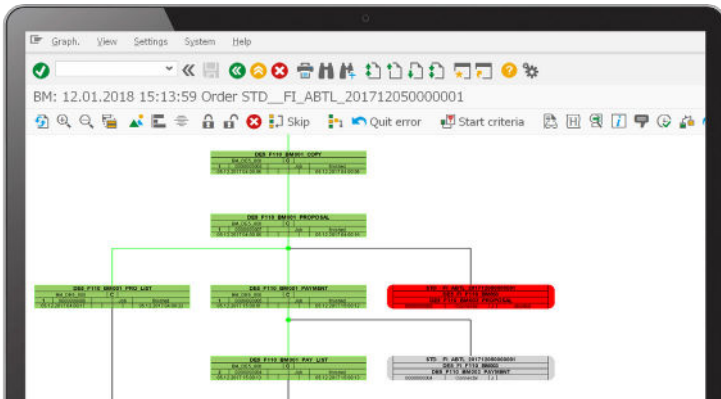

Additional SAP application examples:

- SAP Mass Activities
- SAP Payment Run
- MRP-Run
- IBP Automation
- Managed File Transfer
- Hybrid Cloud

BatchMan

Benefit from an established solution:

- Central planning, control & monitoring
- Cross-system processes (SAP / non-SAP)
- Alarms & automatic recovery
- File-Backup & Switchover Functionality
- Completely integrated process documentation, Change history & error acknowledgements
- Graphical modeling of process chains
- Reporting & mass changes
- SAP S/4HANA certified

”

Thanks to BatchMan job control, we can now bill a large number of our SAP customers in a time-saving automated manner, create all the necessary follow-up activities on a company code basis and make them available to each customer in the Business Workplace.
